☞ In this *Rāga tāḷa mālikā*, since we are unable to obtain the precise *aṅgams* of the *tāḷas* — *lali*, *lakṣaṇa*, *śrīmat kīrti*, *aḷṣara*, *kala* and *śrī*, we have printed the verbatim version of *thendhātu*, *mātu* appearing against the names of these five *tāḷas*.

Since the phrase “*nāṭakādi*” is specifies in the very first *dihātu* of this *rāgatālamālikā*, and since it is required to sing the *mātu*s of all the *rāgas* and *tāḷas* in *ādi tāḷa*, for these aforementioned five *tāḷas*, it should be rendered in *ādi tāḷa*, even though the ending *gītas* of the various *aṅgas* are not specified.

We have been making enquiries regarding these five *tāḷas*. If they are available, we shall print them as an Appendix later.

☞ Each *kañṭika* of the *dātu* — *mātu* for this *daru* is arranged as a palindrome, just like the phrase “*vi ka ṭa ka vi*”. In the last line of the *caraṇam*, the *dātu* alone exhibits this feature. But the *mātu* there is not palindromic, like the earlier ones.
